Dear Colleague:

**RE: Video Remote Vocational Assessments**

COVID-19 has caused us all to pause and discern what the future may look like. Following the recommendations of local Public Health Authorities to eliminate the risks associated with personal contact, we are conducting independent vocational assessments remotely by video conference.

**Our Vocational Assessments are designed to enhance your capacity to mediate your case with assurance of the validity of the assessment for litigation purposes.**

In this current environment the focus is shifting away from court toward mediation and settlement. In several hundred cases over the past 35 years, our comprehensive vocational assessments have assisted legal professionals in securing personal injury, medical negligence, and divorce case settlements.

When mediating your client's case, the value of our **Vocational Assessment** is having a Vocational Expert answer the critical question of residual employability, income loss and future income expectations.

Our report provides an employability opinion and vocational direction based on the results of our comprehensive testing battery and a review of your client's pre/post medical history provided at the time of the assessment. The assessment is conducted through a private and secure (end-to-end encrypted) video conference platform.

For more information and to make a referral, please contact our office at **604 877 1200** or [admin@vocationalsolutions.ca](mailto:admin@vocationalsolutions.ca).

We appreciate your business and thank you for your continued support.

Yours very truly,

Dr. Dean C. Powers, Psy.D CSME CVRP/F ABVE/D  
President and Vocational Consultant
